

We have created a program which will fit most companion dog owners to have a “one stop” experience in order to successfully train, socialize and live in an outstanding relationship with their dog! Our puppy and adult basic obedience classes will cover basically everything the average dog owner will need for living happily with their pup after successful completion and will teach you all the knowledge you will need to create a great bond and relationship with your dogs for all stages of their lives.

#### **Our benefits:**

- ★ **Small class size** with a maximum of 4 dogs ensures exceptional and unmatched individual attention and success
- ★ Most of the used **training tools and toys are included**
- ★ **We educate you on canine psychology and body language** so you can understand **how your and other dogs are thinking and communicating** which makes training a lot easier and more successful. All our knowledge and methods are based on positive reinforcement and the most recent psychological canine research and create a way better relationship and training success as other outdated and non humane methods (like using devices like shock collars or simple “dominance” for example).
- ★ **More break and socialization time within the group due to the small group size** which leads to a more effective training outcome and balanced dogs. Socialization between dogs and shortening “work assignments” with puppies are some of the most important but still underutilized parts in canine training – something that we have changed!
- ★ We understand our training classes as not only “working hard” but also a **coming together as a “pack”** that works together and learns and benefits from each other in a **positive, calm, relaxed and fun environment!**
- ★ **Every class finishes with a graduation day** which includes a field test, a trophy for every successful participant and a fun “graduation prom” for dogs and owners!

## **Terms and Conditions:**

*\*Military and Veteran discounts available*

*\*All training services are subject to a non refundable 20% deposit to guarantee the group training spot or the in home visit timeframe*

*\*All new dog guests for boarding, daycare or training are subject to a prior behavior evaluation.
